SHERMAN'S NEW SHAM

OF THE WILD HUNT FOR GOLD TO RETURN TO.

Brilliant and His Brother Rhysdora Take \$50,000,000 on Terms to Suit Themselves.

New York, April 11.—Secretary Sherman made the sub-treasury office his headquarters yesterday, where he was engaged upon financial matters. He had no formal conference with the representatives of national banks and banking firms. The secretary said to a leading banker, that he came here for no other purpose than to assist him.

SECRETARY SHERMAN'S REPLY. In the resumption of specie payment, not to be dictated to or advised as to his present plan. He stated to the officers of the national banks that he required \$140,000,000 in gold to resume specie payment on January first. He had about \$50,000,000 and desired the banks to assist him in the sum of \$90,000,000 to subscribe for.

\$50,000,000 IN BONDS. which would make up the full amount of \$140,000,000. He also expressed his willingness to dispose of \$100,000,000 of 4 percent bonds at par, with a commission of 1 percent. After general discussion, which was not favorable to the proposition in regard to the four percent bonds, Secretary Sherman made an offer to dispose of fifty million dollars at four and a half percent, and requested the banks and bankers to submit a proposition to him for the full amount or any fractional part thereof. It is understood the national bank conference will meet on Tuesday night to consider the propositions of Secretary Sherman. His proposition that the banks should subscribe for \$90,000,000.

WAS VOTED DOWNS. A committee was selected to prepare and submit a new proposition, which was to be presented to the banks. The proposition as decided upon is accompanied by arguments, setting forth, among other things, that the banks are desirous of rendering aid to the government, but in doing so certain things must be considered. The banks are willing to subscribe for \$90,000,000 bonds, and to sell them at the same price paid for them, asking and requiring no profit, but they must be something for the government.

THE CLASSES OF BONDS. To be issued. The 4 percent they cannot use at all, as the sale is entirely in gold. The 5 percent they are willing to accept at 44 cents, or the 1881, which could be placed more readily. We know that large numbers of bonds which have been returned to this country from abroad on account of the remoteness of silver are now held on speculation, or have been disposed of, and that the government is now in a position to issue bonds now on hand than at any previous time since they were issued. The banks cannot assume any great risks in subscribing for the bonds. They are the market, and must be viewed prospectively, as well as in the present features. Should the market become flat, and the demand for bonds cease, the banks cannot avoid the loss on such bonds as are held over, and they will require a guarantee against loss in order to protect their capital.

THE SECRETARY'S OFFER. The secretary has offered to the government in its efforts to secure a speedy and permanent resumption of specie payments. Sherman said he felt that the government was in a position to issue bonds now on hand than at any previous time since they were issued. The banks cannot assume any great risks in subscribing for the bonds. They are the market, and must be viewed prospectively, as well as in the present features. —Georgia Methodist of Comming, says Col. O. P. Fitzmons, our new manhood, is an unassuming, modest gentleman. He intends to discharge his duties in a mild manner as possible, but with a determined will to execute the law. All good citizens will surely sustain him in the discharge of his arduous duties.

—Cartersville express: J. C. Harris, of the ATLANTA CONSTITUTION, is sick with the measles. Will be in here in a few days. The "Romance of Rockville" will not begin before next week. Joe ought to have had the measles when a little boy, and they would not be troubling him now at a critical point in his literary fame.

—Georgia (Comming) Methodist: Atlanta has many public-spirited men of distinction in law, literature and divinity. While the city here is one with soul, strength and mind. The place is full of vim, energy, pluck, go-aheadiness. Occasionally, some one fails, there is a little flurry, but Atlanta goes on in her rise, her energy, knowing no such word as permanent failure at anything. Were I required to give my opinion as to what contributes most to the life of Atlanta and her onward and upward march, I could not for the life of me answer at once, there are so many powers at work. The ATLANTA CONSTITUTION, under its present management, has attained an influence and circulation rarely known to journalism.

—The Gwinnett Herald says: Notwithstanding the general complaint of hard times and scarcity of money, which seems to have become chronic with our people, substantial improvements may be seen on almost every farm, which indicate a more prosperous condition than we have experienced since the war. Good houses, fences, capacious barns, improved farming implements, good stock and a general air of thrift indicate advanced prosperity. It is true money is scarce, but an agricultural community like ours, if their wants are circumscribed with proper bounds, do not need much money. It is very convenient to have, but when men are out of debt, run their own farms and do their own work, they are the most independent, and consequently the most happy of our population.

DOWN IN DIXIE.

—More corn has been planted this year than usual in Mississippi.

—Many pine apple plants are being set out at De Land, Florida.

—Port Royal is infested with a gang of burglars that are creating quite an excitement by their depredations.

—A Pensacola man has an orange tree thirty-four years old, and it has never bloomed until this year.

—Four thousand and ten persons now belong to the Murphy temperance movement in Memphis. This is a big army of teetotalers.

—Mr. Stanton, of Chattanooga, has employed Mr. Eckles, a German landscape gardener, to ornament the ground around the Stanton house and lay out the park on Lookout mountain.

—The record shows that the people of Richmond took two million drinks during the past six and a half months. There were plenty other drinks which the law did not require to be registered, and doubtless many others that ought to have been but were not registered.

99 Cent Store.

—Lawrence Barrett quit the managing business at New Orleans a few years ago nearly \$400,000 in debt. It is now said that he has squandered it all off by his professional earnings since.

This was done by Governor Hampton in consequence of a communication from Judge Thomson, who is holding court at Aiken. —The fourth week in April is to be a grand time in Charleston. The agricultural society of South Carolina will hold their annual fair at that time, the Washington Light Infantry will hold a four night's entertainment, the State Press association will meet, and on Tuesday evening, and probably at a matinee on some morning of the week, one of our favorite companies of amateurs will give a choice dramatic exhibition at the Academy of Music.

—The British ship Algonia left Galveston, Texas, May 31, with a cargo of 4,799 bales of cotton, each bale containing an average weight of 502.3 pounds, the whole number of pounds being 2,410,297.
